

REMARKS

This application has been carefully reviewed in light of the Office Action dated October 17, 2003. Claims 1-6 remain pending in this application. Claim 1 is the independent claim. Favorable reconsideration is respectfully requested.

Applicants note with appreciation the indication that Claims 1-6 are allowed.

In response to the Office Action's objection to the drawings, Applicants respectfully request that substitute Fig. 1, showing the UV light reflective layer covering only a portion of the protective layer, be entered. Two (2) copies of substitute Fig. 1 are herewith included. No new matter is added by substitute Fig. 1. Applicants respectfully believe the changes to Fig. 1 adequately respond to the objection to the drawings and respectfully request its withdrawal.

In response to the Office Action's objection to the specification for failing to provide subtitles, Applicants gratefully acknowledge the Office Action's suggestion, however respectfully decline to add the headings as they are not required in accordance with MPEP §608.01(a).

In view of the foregoing amendments and remarks, Applicants respectfully submits that the currently-pending claims are clearly

patentably distinguishable over the cited and applied references.

Accordingly, entry of this amendment, reconsideration of the rejections of the claims over the references cited, and allowance of this application is earnestly solicited.

Respectfully submitted,
